

Dear Friends,

I want to confirm that Negro will be in Madrid, Saturday the 20th of June, to assist the inauguration of Parque Toledo and also to send you some commentaries from him:

"..I think I will be in Madrid around 9 days and there will be time to go talking with friends. On Sunday the 21st at 3pm (the day after the inauguration of the park) we will celebrate in Madrid a meeting with Messengers from Spain and Europe and I believe that well organized and coordinated communities of the Message will come out of this meeting.

Considering all of this, I ask if you can circulate the information about the Message meeting in Madrid on the 21st throughout Europe. (the day after the inauguration of the park). And if you don't know too much about the communities of the Message perhaps you can ask for help from those in this theme. We should remember that numerous conferences about the book "Silo's Message" have been only given in Spain in diverse areas. To adequately frame the theme of the Message, I am sending a short material that of course can circulate without any limitation."

Un fuerte abrazo,

Maxi
